To: Zenodo Support <support@zenodo.org>, "info@zenodo.org" <info@zenodo.org>

Dear Zenodo Support,

My apologies for some reason the attachments were not sent so they are attached here along with the sent email-

I refer to my previous appeal regarding the suspension of my account and the deletion of my 42 preprints.

Attached is a formal legal notice I have sent to the individual who filed the copyright complaint against my work (Tony Carbone) and his associates. The notice details:

1. My priority based on timestamped files from 2018 (seven years before his "Harmonic Codex").
2. His download of my work from Zenodo before he filed the complaint.
3. His impersonation of a legitimate LIGO researcher (Dr. Ludovico Carbone).
4. His fraudulent misrepresentation of having a paper under peer review.
5. His breach of my license by downloading and then copying my work.

I have demanded that he retract his false claims and notify Zenodo that his complaint had no basis.

Further due to my disability the use of AI under my strict instructions is fully justified, further as AI are trained solely on current accepted physics and rejects anything that contradict this it proves the ai is simply and grammar word processor and has no direct influence on the contents, by your ban on my account you have violated the Federal Act on the Elimination of Discrimination against People with Disabilities (Disability Discrimination Act, DDA; SR 151.3). It is also known as the Behindertengleichstellungsgesetz (BehiG).

Article 2 – Definitions

Art. 2, para. 1: A person with a disability is anyone who, due to a physical, mental or psychological impairment that is likely to be permanent, finds it difficult or is unable to carry out everyday tasks, cultivate social contacts, move around, obtain an education or training, or work .

Art. 2, para. 2: Discrimination occurs when persons with disabilities are treated differently from persons without disabilities without material justification, or when equal treatment is not provided where it is necessary to ensure that persons with disabilities have the same rights .

Article 6 – Services Provided by Private Entities

Art. 6: Private entities that offer public services may not discriminate against persons with disabilities due to their disabilities .

Article 8 – Legal Rights in the Case of Services

Art. 8, para. 1: Any person who suffers discrimination as defined in Article 2 paragraph 4 by a licensed undertaking or a state authority may request a court or administrative authority to order the provider to eliminate or cease the discrimination .

How These Provisions Apply to My Case

- Disability status: My aggressive Dupuytren's contracture qualifies as a "physical impairment which is likely to be permanent" under Art. 2(1).
- Discrimination in services: Zenodo is a private entity that offers public services (a preprint repository). Under Art. 6, it may not discriminate against me because of my disability.
- Denial of reasonable accommodation: By banning my account for using an AI writing tool without first offering an accessible alternative, Zenodo has arguably treated me differently without objective justification – a violation of Art. 2(2).

- Legal remedy: Article 8(1) gives me the right to ask a Swiss court or administrative authority to order Zenodo to restore my access.

I respectfully request that Zenodo:

- Reinstate my account and restore all my preprints.
- Investigate the authenticity of the copyright complaint that led to my suspension.

I am the original author of this work. The evidence is now on record. I trust Zenodo will correct this error.

Thank you.

Sincerely,

Peter James Thompson
