Subject: Copyright infringement – priority claim (2018 files)

To: T & C Estate

Attachment: 2018 PDF (light e=mv and dim... 22/04/2018)

Dear T & C Estate,

Please check the attached and find the PDF marked 2018. This PDF directly predates your Harmonic Codex and places you in direct violation of copyright by use of its contents without citation/s or acknowledgement of the work that predates the Harmonic Codex by Tony Carbone by a period of 7 years.

You must now delete your Harmonic Codex paper immediately, as I have priority and copyright on the materials you have used, and you have committed academic fraud and copyright infringement.

I can now prove in civil court the facts, and I can **prove** the disputed works which had my Zenodo account suspended are a fabrication, as you need my work to verify your hydrogen line paper – which is pure numerology without it and has no basis – and is a fraudulent attempt to steal work you have no rights to.

You have 14 days to:

1. Remove the Harmonic Codex paper.
2. Provide written acknowledgement of my priority.
3. Notify Zenodo that you had no basis for your unfounded claims of dispute.

If you fail to do so, I will pursue legal action for copyright infringement.

Have a nice day.

Best wishes as you, your secretary and estate are done and legally liable for damages and loss of personal property due to the account deletion.

Peter Thompson
